

Press Release

JK Huey to join Aspen Grove Solutions' Advisory Board

Frederick, Maryland February 1st, 2018:

Maryland-based mortgage technology solutions provider, Aspen Grove Solutions, has appointed JK Huey to its Advisory Board.

Huey brings over 35 years of experience in the financial services industry. Recently retired from Wells Fargo, Huey will offer her expertise to assist Aspen Grove in providing technology solutions to the mortgage industry. Throughout her career, Huey has demonstrated her passion for excellent service to customers and communities. Prior to joining Wells Fargo, she held senior management positions at other large companies where she oversaw a variety of areas, including customer service, default management, retail production, and acquisitions.

As well as being a certified mortgage banker, an accredited mortgage professional, and a member of MORPAC and loan administration committees, Huey was recently made the Chairman Emeritus of the National Mortgage Service Organization. She has received the the 2014 Five Star Lifetime Achievement Award, the 2012 Larry E. Temple Distinguished Service Award, and the 1992 Young Mortgage Banker of the Year Award. In the past, she served as president of the Texas Mortgage Bankers Association and served on the Black Knight Mortgage Advisory Board, the Fannie Mae Customer Advisory Board, and the Freddie Mac Servicer Advisory Board.

Aspen has been providing technology solutions to the mortgage default services industry since 1997. Its offerings include a property servicing technology platform focusing on solutions to manage everything related to the property asset. Aspen's property servicing platform is unique to the industry. The platform enables servicers to manage default operations while addressing industry problems such as cost control and recovery, investor allowable management and gathering of claim data, elimination of bill-backs, vendor oversight, compliance and reputational risk, quality control, and community safety.

"At Aspen we believe we are transforming the mortgage industry to enhance outcomes for the investors / servicers and their borrowers, with solutions that simplify the operations of default property management and property servicing," said Sean Ryan, CEO at Aspen Grove Solutions. "JK's extensive knowledge, industry experience and exemplary reputation will help guide Aspen's business to ensure we are providing the right solutions to the industry. We are delighted to welcome JK onto our Advisory Board and we look forward to many years working together to improve the outcomes for everyone including the borrower."

JK Huey said about the appointment: "I am honored to be asked to serve on Aspen Grove's Advisory Board. Knowing the challenges the industry is faced with, and having worked with a number of technology solutions, I know the team at Aspen Grove is ready to provide the support and solutions needed for companies to be successful. I'm looking forward to assisting them in the development of tools and solutions to better serve their clients."

About Aspen

Founded in Boston, MA, and now based in Frederick, MD, AspenGrove Solutions (Aspen) has been providing technology solutions to the mortgage default services industry since 1997. Aspen's Property Servicing platform is unique to the industry. By focusing on solutions to manage everything to do with the Property Asset, while complementing loan servicing, Aspen is revolutionizing default servicing. Servicers are reaping the benefits of having a single view of everything that happens on the asset level no matter which 3rd party vendor or internal team member carries out the work. Aspen believes that better outcomes for servicers leads to better outcomes for borrowers. Aspen gives Servicers the tools to manage default operations while addressing industry problems such as cost control and recovery, investor allowable management & gathering of claim data, elimination of bill-backs, vendor oversight, compliance & reputational risk, quality control, and community safety. Some of the country's largest organizations use the Aspen Property Servicing platform to manage the life cycle of billions of dollars worth of assets.
